

# VELAS NFT MINTING PLATFORM

## GRANT OPPORTUNITY

### OVERVIEW

NFTs have a powerful effect on all forms of digital content, such as digital art, collectibles, games, and most recently on music and video. Velas' aim is to take over the mainstream, and make the NFT creation process as simple and convenient for content creators and newcomers in crypto space as possible, leaving all the unnecessary technical details under the hood.

### TARGETS

Simple minting/builder of NFTs on the Velas blockchain.

### SCOPE

- Platform for minting NFTs with the following functionality:
  - **Storefront**
    - Home page  
Sign up\Log in. The users are offered to sign up via Metamask, MyEtherWallet or other cryptocurrency wallets.
    - Account panel  
User items  
Settings (user info, notification settings)  
Help
    - Minting item modal lightbox that consists of the following points:
      1. Creation of new NFT.
      2. Choose: Traditional or gasless creation (lazy minting).
      3. File uploader (images, audio/video, gif) with ability to state the name, description, tags, external link, and other features.
      4. Creation status.
      5. Share Link with preview on created NFT token and QR code for purchase.

### HOW TO APPLY

- Please send your application to [info@velas.com](mailto:info@velas.com) with the following information:
  - Team background and experience.
  - The project timelines, targeted deliverables at each milestone, estimated efforts.
  - Specify how much of the grant you estimate you will need.
  - Information about previous Velas Ecosystem participation.
  - Any suggestions beyond the scope of this document that will help advance the project goals.

### CONTACTS

We welcome all feedback, discussion and suggestions. You can send your suggestions to [info@velas.com](mailto:info@velas.com)
